

ITEM 19
FINANCIAL PERFORMANCE REPRESENTATIONS

The FTC's Franchise Rule permits a franchisor to provide information about the actual or potential financial performance of its franchised and/or franchisor-owned outlets, if there is a reasonable basis for the information, and if the information is included in the disclosure document. Financial performance information that differs from that included in Item 19 may be given only if: (1) a franchisor provides the actual records of an existing outlet you are considering buying; or (2) a franchisor supplements the information provided in this Item 19, for example, by providing information about possible performance at a particular location or under particular circumstances.

Other than the information provided below, we do not provide, or authorize our sales persons or sales representatives to provide, any oral or written information concerning the actual or potential sales, costs, income, or profits of an i9 Sports® Franchise. Actual results vary from Franchise to Franchise, and we cannot estimate the results of any particular franchise. If you receive any other financial performance information or projections of your future income, you should report it to our management by contacting Brian Sanders at 1723 S. Kings Avenue, Brandon, Florida 33511 and (800) 975-2937, the Federal Trade Commission and any appropriate state regulatory agencies.

We do not furnish or authorize our representatives to furnish any oral or written information concerning the actual or potential sales, costs, income or profits of a Franchise, except as stated below. Actual results vary from Franchise to Franchise and we cannot estimate the results of any particular Area Developer. Below is the Total Actual Aggregate Revenue from Youth Participant Registrations for all full-time i9 Sports franchises operating at least 1 year during 2007-2008 and the Cost Per Registration that are currently the fixed costs for i9 Sports® youth sports nationwide based upon the national pricing resulting from affiliations, partnerships, and i9 Sports® directly (Item 1 and Item 2) and these are SUBJECT TO CHANGE AT ANY TIME. Substantiation of the data used in preparing these gross sales amounts is available upon your reasonable request.

Total Actual Revenue – Youth Participant Registrations

The sales figures presented in this Item 19 are for i9 Sports® franchises that were open for at least 1 year in 2008 and operated full-time. This Item 19 contains information based on the total actual sales of franchised i9 Sports® businesses from individual player and team registration revenue only, and does not take into account revenue from sponsorship advertising, merchandise sales, concession sales, online retail sporting good or apparel sales nor account the fees and payments you must make to us or other parties under the Area Developer Agreement (for example: Royalties and National Brand Fund), or any other costs or expenses that you will incur in the operation of your franchise. Operating results of i9 Sports® franchises (presently or formerly) owned or operated by us or our affiliates are NOT included in these figures, because we believe the operating results of franchised i9 Sports® are more likely to be representative of the results of a franchised i9 Sports® franchise.

This Item 19 contains no information about future, projected, or forecasted sales; or about actual, average, projected, or forecasted expenses, profits, or earnings. The data used to

compile this Item 19 will be made to any prospective Area Developer upon reasonable written request. You should consult with financial, business, and legal advisors about this Item 19 and the Area Developer Agreement.

We do not authorize our officers or sales personnel to furnish you with any oral or written information about actual or potential sales, expenses, profits, or earnings of i9 Sports® franchises other than the specific information contained in this Item 19.

Methodology

Actual registration revenues (“sales”) and Areas of Play in this Item 19 were reported through our automated Billing System. All i9 Sports® franchises operating “full-time” and open for at least 1 year in 2008 are included in the compiled data.

We believe that the franchises’ gross sales for individual player & team registration revenue reporting is accurate as to sales, because each franchise must use the Billing System to report all network revenues and must pay to us royalties that are calculated as a percentage of each franchise gross revenues. We have not audited nor in any other manner substantiated the truthfulness, accuracy, or completeness of any information supplied by its franchises.

Total Actual Revenue for any adult sports franchised business is NOT included in this Item 19 including our predecessor ABA Sports Inc.

If an i9 Sports® franchise was transferred from one area developer to another, its results under the different area developers are included as the results of one i9 Sports® franchise for the entire period. Sales by i9 Sports® franchises owned or operated by us or our affiliates as of the end of a calendar year are not included in Item 19. If an i9 Sports® franchise was transferred from an area developer to us or to one our affiliates, those results are not included in Item 19.
